 no. 1, p. 120-123. (Abstract available)

DESCRIPTORS: *Clouds, *Noctilucent clouds,
 Atmospheric condensation, Dusts, Theory,

The dust hypothesis, explaining the noctilucent cloud
 occurrence by the accumulation of meteor dust parti-
 cles or of volcanic matter, is being met with serious
 objections. The condensation hypothesis, on the con-
 trary, explains not only the altitude limitation of
 noctilucent clouds, and the constancy of their altitude,
 but also their connection with meteorological phenom-
 (Earth Sciences--Meteorology, TT, v. 11, no. 4)(over)
